GENERAL NOTES.

A copy of every new issue of the WORKING TIME-TABLE BOOK, or section of the Book, is to be supplied to all concerned in accordance with Regulation 8.

It is imperative that each Stationmaster carefully check this Time-table, regarding the timing of trains, crossing arrangements, etc., so far as his own station or the stations he supervises are concerned. He will be held responsible for promptly bringing under the notice of the Time-tables Co-ordinator (Room G.38) and Manager, Suburban Stations or Manager, Country Train Operations (Eastern) any inaccuracies that may appear herein. WALL SHEET TIME-TABLES issued in conjunction with this book are to be posted in a prominent position at a height from the ground and in close proximity to a light to enable passengers to consult it with facility. A red line must be ruled on each time-table under the name of the station concerned and time applying to it.

PASSENGER TRAIN AND RAIL MOTOR RUNNING.—Depot stations must obtain full particulars from Guards of the late running of Passenger Trains and Rail Motors. In the case of a Rail Motor run without a Guard, the necessary particulars shall be obtained from the Engineman. In the event of any time being lost by the locomotive, the cause, also locomotive number and class, must be ascertained from the Engineman and the Train Controller advised. Enginemen will require to explain the cause of any time lost that in the aggregate exceeds the time gained on the journey.

When a Passenger Train or Rail Motor is blocked at a roadside station, the Train Controller must be advised by the Stationmaster at the station at which the block occurred and if the train which caused the block was running late, the cause of such late running (whether overtime in section or other cause) must be given if ascertainable.

SUBURBAN PASSENGERS NOT TO TRAVEL BY INTERCITY AND INTERURBAN TRAINS.

Country trains to and from Melbourne including Rail Motors as well as Locomotive hauled Passenger Trains shown in the Working Time-table books are not available for inter-station passenger travel within the electrified suburban area unless otherwise specified in the Time-table books.

One class suburban ticket holders are not permitted to travel in first class carriages.

SCHEDULED STOPPING ARRANGEMENTS FOR COUNTRY PASSENGER SERVICES.—The instructions regarding action to be taken by train men concerning "if required" stops when necessary for passenger purposes are shown on page 4.

NUMBERING OF COUNTRY TRAINS.—With the introduction of Train Descriptor Numbers in the Metropolitan District Working Time-table, all Country Passenger and Goods trains that pass through the Metropolitan Area are allocated numbers for the various Country Districts as shown hereunder:—

	TRAINS	
	PASSENGER	GOODS
Northern and Midland.	8000 - 8099	9000 - 9099
North Western.	8100 - 8199	9100 - 9199
South Western.	8200 - 8299	9200 - 9299
North Eastern.	8300 - 8399	9300 - 9399
Eastern.	8400 - 8499	9400 - 9499
Standard Gauge.	8600 - 8699	9400 - 9499

The Werribee-Newport shuttle service will carry Metropolitan numbers, viz 6451 onwards for "Down" trains and 6450 onwards for "Up" trains.

24 HOUR TIMINGS

24 hour timings are used throughout this Time-table and associate Train Running Documents.

The hours are numbered consecutively from 01 to 23 then 00 (as shown on the dial). Instead of a.m. and p.m., 12 is added to the hours after midday, thus 1.00 p.m. becomes 13 00, 5.00 p.m. becomes 17 00, 9.00 p.m. becomes 21 00 (or 21 19 or 21 47 according to the minutes after the hour) and so on. Midnight is 00 00 and times between midnight and 1.00 a.m. are shown by the figures 00 01 to 00 59.

Note—All quotations of train times to the travelling public should still be in 12 hour a.m. and p.m. times. Wall-sheet and Public Time-tables will continue to be shown in 12 hour a.m. and p.m. times.

TRAIN TIME-TABLE REFERENCE SYMBOLS

Express, Passenger, Rail Motor and Mixed trains must stop at stations where so scheduled in the time-tables. Where the times of arrival and departure of trains are not both stated, the times shown are of those of departure from stations.

Where the time for the train is shown without the addition of one of the undermentioned symbols or other special reference, a definite stop must be made.

Where the following standard symbols viz., *, ∇, d, u, ††, π, # and ● are utilized with or without, as the case may be, a time being shown, they indicate how the train shall be dealt with at the particular station or stations, e.g., whether non-stop, or to stop in certain circumstances.

The symbols referred to and their application to the timetable are as follows:-

- * Trains will not stop to pick up or set down passengers at stations where the train schedule is marked thus, or where this symbol occurs without an accompanying time.
- ∇ Indicates that the train shall only require to stop at the station or Rail Motor Stopping Place concerned in the following circumstances:
 - (1) When signalled from the station to stop, indicating that there are passengers, vangoods and/or mails to be entrained.
 - (2) And/or when the train is conveying passengers, vangoods or mails for the station. The Guard is responsible for informing the Engineman that there are passengers, vangoods, or mails to be discharged. If no conductor on train, the Guard must make the necessary inquiries among the passengers at the previous stopping station. If no Guard be employed on a Rail Motor, the Engineman must make the necessary inquiries.
- d Trains to stop to set down, if required, but not to pick up passengers at stations where the train timetable is marked thus. Passengers desiring to alight must give notice to the Conductor at the previous stopping station, where Conductors must also inquire. On trains which have no Conductors, the Guard will be responsible for this duty. If no Guard be employed on a Rail Motor, the Engineman must make the necessary inquiries. The Guard is responsible for informing the Engineman that there are passengers to be detrained.
- u Picks up only.
- †† Trains marked thus run only if required. Special advice will be issued by the Chief Operations Manager, Chief Train Controller, District Senior Train Controller or Depot Stations when the running of such trains is necessary.
 - Indicates that the train must when practicable be despatched from the station concerned at the earlier time shown.
 - π Train stops to set down only, if required, but not to pick up passengers.
 - # Not advertised
 - ◆ Indicates that the Road Coach shall only stop when signalled to do so by an intending passenger and/or when conveying passengers for that stop.
 - ▲ Reservations are compulsory by this train. Bookings must be made through the Central Reservation Bureau or Regional Booking Centres.

STATION REFERENCE SYMBOLS

- E.S. Electric Staff Stations.
- † Staff Stations, at which the staff, a Staff Ticket, or a Line Clear Report must be received before starting, and delivered on arrival.
- NC No one in charge stations.
- Stations Worked under Rail Agent conditions, but at which the employees in charge are authorised to collect freight charge.
