VICTORIAN RAILWAYS,
Commissioner's Office, Spencer-street,
Melbourne, 28th September, 1903.

To the Honorable the Minister of Railways.

SIR,

In conformity with the provisions of Section 59 of the *Railways Act 1890*, No. 1135, we have the honour to submit, for the information of Parliament, the Annual Report of the Railways Department for the financial year ending 30th June, 1903.

NEW LINES.

The undermentioned lines were opened for traffic :—

Woomelang to Hattah 69 miles
Hattah to Nowingi 12 miles

A new line, 1 $\frac{3}{4}$ miles long, to the Spring Vale Cemetery was taken over from the Board of Land and Works on 1st January, 1903, but has not yet been opened for traffic.

CAPITAL EXPENDITURE.

The total expenditure charged to capital account at 30th June, 1903, was £40,974,492 19s. 2d., inclusive of the net amount (£149,869 1s.) debited temporarily to loan funds (see Appendix No. 13).

The following were the charges for the year :—

Construction of new lines and surveys, viz.—

LOAN ACCOUNT.

The amount of borrowed capital was, on the 30th June, 1903, details of which are shown in Appendix 14 ... £38,970,925 12 10

The increase in loan capital for the year amounts to 521,400 14 4 made up as follows :—

Additional stock raised or transferred to debit of Railways by the Treasury, as under—

Act 845 £32,985 12 1

„ 1468 4,935 1 8

748,425 19 2

£521,400 14 4

The interest amounts to £1,460,814, and in addition the Department was debited with the sum of £14,259, to cover expenses incurred by the Treasury in respect of the payment of interest, &c., so that after deducting the sum of £1,541, which represents 2 per cent. on the weekly unexpended balances of loan moneys raised for Railway purposes, the net amount of the interest debited to the Railway Account is £1,473,532. The average rate of interest payable on the borrowed capital allocated to the Railways is 3·86 per cent.

REVENUE.

The gross revenue amounts to £3,046,858, or £320,985 less than that earned during the preceding financial year.

The revenue is inclusive of £4,895 and £6,521 respectively which were received from the Honorable the Treasurer to recoup the Department for the loss of revenue sustained by the carriage of coal, and in respect of the transport of grain, &c., at reduced rates as ordered some years ago by the Government of the day.

The revenue, however, does not include the sum of £46,388, which has not yet been credited to the Department by the Treasury, in respect of the carriage of grain, &c., at the reduced rates during the year. Nor does it include the sum of £14,773, which is the estimated value of the services performed for other Departments of the State and the Commonwealth, for which no payment was received.

The decrease in the receipts from the conveyance of passengers amounts to £53,181, and from the goods traffic to £334,196, which is inclusive of the £46,388 above mentioned, or a total decrease in revenue from these items of £387,377. The revenue from live-stock shows an increase of £69,504, due almost entirely to the transport of stock from the drought-stricken districts.

The decrease in the gross revenue in comparison with that earned during the previous twelve months is largely, if not entirely, attributable to the almost total failure of the harvest, consequent on the deplorable drought experienced throughout the grain-producing areas of the State, the collateral loss in the passenger business, the non-payment of the grain, &c., subsidy, and the partial cessation of transport facilities owing to a strike of a section of the Railway Service.

The following comparative table shows the gross revenue, &c., for the past thirteen years:—

| Year. | Gross Receipts. | | | Gross Receipts per Train Mile. | | |
|-----------|-----------------|-----------|-----|--------------------------------|----|-------|
| | | £ | | s. | d. | |
| 1890-1 | ... | 3,298,567 | ... | ... | 5 | 4·63 |

| 1902-3 | ... | 3,046,858 | ... | ... | 5 | 11·09 |

WORKING EXPENDITURE.

The total working expenditure of the Department, inclusive of a sum of £78,913 expended on "Belated Repairs," and the outlay necessitated by the strike, amounts to £1,938,580, or £133,794 less than the expenditure of the previous financial year.

The total working expenditure, however, does not include the sum of £93,507, involved in the payment of pensions and gratuities.

The reduction in the train mileage totals 998,672 miles, which is equivalent to 8·85 per cent. of the mileage of the preceding year.

The decrease in the cost of coal, consequent on the reduction in the prices per ton payable by the Department, amounts to £20,000.

Increments were granted to the staff in receipt of less than the equivalent of £125 per annum to the extent of £8,400 for the year.

The operation of the principle of percentage deductions as directed by Parliament in respect of salaries and wages over the equivalent of £125 per annum resulted in a reduction of £27,000, while the limitation of a considerable proportion of the staff to an average of five days' work per week enabled a saving in wages for this year to be effected to the extent of £73,000. In addition, economies were accomplished in various matters of detail, and, generally, it may be said that only such works were undertaken as were regarded as essential in the interests of safety and efficiency.

The following comparative table shows the working expenditure, &c. (exclusive of pensions and gratuities) for the past thirteen years:—

| Year. | Average Mileage open for Traffic. | Total Working Expenditure. | Percentage of Gross Receipts. | Expenditure per Train Mile. |

GENERAL RESULTS.

The result of working for the year under review may be summarized thus:—

| | | | | |
|---------------------------|-----|-----|-----|------------|
| Total revenue | ... | ... | ... | £3,046,858 |
| Total working expenditure | ... | ... | ... | 1,938,580 |

NET REVENUE £1,108,278

The total revenue does not include the sum of £14,773, which is the estimated value of the services rendered by the Railways to other Departments of the State and the Commonwealth, for which no payment was received; nor does it include the sum of £46,388, in respect of the carriage of grain at reduced rates, before referred to.

The ratio of the working expenses to the gross revenue is 63·63 per cent., in comparison with 61·53 per cent. for the preceding year.

The total working expenses is exclusive of the sum of £93,507 paid in respect of pensions and gratuities.

The net revenue paid 2·84 per cent. as against 3·45 per cent. last year on the total loan moneys expended.

The deficit in meeting the interest debited to the Railway Account may be stated thus—

| | | | |
|--|-----|--------|--------|
| (1) Including in the revenue— | £ | £ | £ |

PERMANENT WAY AND WORKS.

The permanent way and works were maintained in safe condition and good working order, and a certificate to that effect from the Chief Engineer for Existing Lines will be found in Appendix No. 4.

In consequence of the fact that the outlay on the renewal of rails, and on re-ballasting and re-sleepering has, for some years past, been restricted by the exigencies of State finance, it was necessary to incur special expenditure during the year to the extent of £78,913 on "Belated Repairs," the whole of which sum was charged to working expenses.

The total estimated outlay involved in connexion with "Belated Repairs," as per the reports of the Chief Engineer for Existing Lines, embodied in an Appendix to the last Annual Report, is £260,000. It was decided to distribute the expenditure in equal proportions over two years, and, in conformity with that decision, £130,000 was provided for the year ending 30th June, 1903, but only £78,913 was expended, chiefly owing to the authority to proceed with the work not having been issued until January last. The amount unexpended during the year under review, viz., £51,087, together with the greater portion of the £130,000, allotted for the current year, should be expended prior to 30th June next.

Ninety miles of new rails weighing 80 and 100 lbs. to the yard were laid, and 13½ miles of unserviceable steel and iron rails were replaced by the serviceable steel rails released by some of the heavier new rails above referred to, 328,576 new sleepers were also put into the track.

Exclusive of the expenditure on "Belated Repairs," the cost of the maintenance and renewals of way and works was £449,340, or £135 per mile of main line (average mileage open), and 10·49d. per train mile, as compared with £501,938, £154, and 10·68d. respectively in the previous year. Inclusive of the outlay on "Belated Repairs"; the figures are £528,253, £158 per mile of main line, and 1s. 0·33d. per train mile respectively.

Forty-six interlocking levers were installed at three places, making the total number in use at 30th June, 1903, 6,485 at 482 places, and the proportion of interlocked places 59·65 per cent.

Syke's Lock and Block System was installed between West Richmond and Clifton Hill, and Syke's "Back-Lock Gear" at "B" and "E" boxes at Flinders-street, and at Prince's-Bridge and North Melbourne.

Owing to lack of funds but little progress was made on the works of the new station at Flinders-street, Melbourne.

The new works costing over £100 each, completed or in progress during the year, are enumerated in Appendix No. 17.

ROLLING-STOCK.

The locomotive, carriage, truck, and other rolling-stock in use, and the machinery and tools were maintained in good order and repair, and a certificate to that effect from the Chief Mechanical Engineer will be found in Appendix No. 3.

The expenditure on motive power was £641,319, and the cost per train mile 1s. 2·96d., as compared with £710,105 and 1s. 3·10d., respectively, in the previous year.

The strike of drivers, firemen, and cleaners, the inadequate supply of water for locomotives in the Northern Districts, and the use of an inferior quality of coal during a part of the year contributed to make the expenditure greater than it would otherwise have been.

The expenditure on carriages and trucks was £133,614, and the cost per train mile 3·12d., as compared with £145,359, and 3·09d., respectively, in the previous year.

Ninety-two cars were equipped for Pintsch gas lighting, making a total number of 750 so equipped.

One hundred and fifty-seven trucks were fitted with the Westinghouse brake, and seven with brake pipes, making a total of 7,605 trucks fitted with the brake and 1,970 with brake pipes only.

New rolling-stock was put into service as follows:—

| | |
|---|--|
| 4 express ("AA" class) locomotives | 105 steel 15-ton medium trucks |
| 1 ten-wheel express ("DD" class) locomotive | 20 steel 10-ton medium trucks |
| 7 consolidation (V class) locomotives | 5 steel 45-ton coal trucks |
| 8 composite lavatory corridor carriages | 109 steel sheep trucks |
| 6 first-class carriages | 1 steel truck for heavy boilers, &c. |
| 8 hearse trucks | 13 steel water trucks (each 2,000 gallons capacity). |

One-half of the cost of the 14 carriages and one-sixth of the cost of 125 medium and 109 sheep trucks were charged to working expenses under the recoup system.

CURTAILMENT OF EXPENDITURE.

In order to meet the exigencies of State finance, a scheme was evolved to achieve a substantial reduction in the estimate of the amount required to cover the ordinary working expenses of the Department for the year. The work of a large proportion of the staff was limited to an average of five days per week, the train mileage was curtailed to the equivalent of approximately 600,000 miles per annum, employés whose services were not actually required were granted extended leave, annual leave was reduced by one-half, the payment of increments to employés in receipt of over £125 per annum was stopped, and various privileges and concessions hitherto enjoyed by the staff were considerably curtailed or entirely abrogated.

DROUGHT.

A drought almost unparalleled in its severity and wide-spread influence was experienced in portions of the north-eastern and in the northern and north-western areas of the State, and in order to assist the settlers as far as practicable, water was carried and delivered at very low rates wherever the necessities of the period required, fodder was carried at abnormally cheap rates for the sustenance of stock in the areas affected, and stock was transported at about one-half of the ordinary charges, and promissory notes accepted in payment therefor. The services performed by the Department in connexion with the drought necessitated a very large percentage of dead haulage, and an expenditure much above the ordinary ratio. The duties which devolved on the staff engaged therein were extremely arduous, and the spontaneous expressions of satisfaction received by the Department from the people interested bear ample testimony to the zeal and care displayed in the conduct of the traffic.

STRIKE.

During the early portion of the month of May the business of the Department and the commerce of the State were seriously interfered with by a deplorable "strike" against established authority, on the part of a section of the Railway Service. The event entailed very great inconvenience to the general community, and involved the Department in considerable expense and loss of revenue.

LINES, WORKS, AND EQUIPMENT.

We are engaged in the preparation of a statement of the expenditure required in respect to the lines, works, and equipment to provide for efficient and economical operation, and to afford suitable and sufficient accommodation for the traffic.

The capacity, suitability, and condition of the motive power, carriage, truck and other rolling-stock, are under special investigation.

VALUATION OF STORES.

We have taken steps to obtain a valuation of the stores on hand by an expert and independent Board, and this valuation is now in progress,

OLD LINES.

The following lines were not operated during the year :—

| Line. | | | Length in Miles. | | Capital Cost. £ |
|-----------------------------------|-----|-----|---------------------|-----------------|--------------------|
| Dunkeld to Penshurst (Dismantled) | ... | ... | 16 $\frac{1}{4}$ | ... | 50,000 |

| Darling to Waverley | ... | ... | 1 | 1 | 7,000 |
| Total | ... | ... | 25 | ... | £217,000 |

Surveys.

The total amount expended up to the end of the financial year on general surveys of lines which have not been constructed is £311,573.

Unproductive Capital.

The interest payable on the whole of the above unproductive capital, viz., £217,000, and £311,573 or a total of £528,573, which amounts to £20,403 per annum is debited to the Railway Department, and included in the accompanying accounts.

Administration.

The Department was administered by Mr. Fitzpatrick, as Acting-Commissioner for the period from 1st July, 1902, until 6th April, 1903, and as Commissioner from then until 1st June, 1903. From that date until the end of the financial year, the administration was exercised by the three Commissioners—Messrs. Tait (chairman), Fitzpatrick, and Hudson—appointed under the provisions of the *Victorian Railways Commissioners Act* 1903.

In the Appendices will be found the Report of the Engineer-in-Chief, and detailed statements of the Capital and Revenue Accounts and other statistical information.

We have the honour to be,

Sir,

Your most obedient servants,

THOS. TAIT, Chairman.

W. FITZPATRICK, Commissioner.

C. HUDSON, Commissioner.
