R E P O R T.

VICTORIAN RAILWAYS,
Commissioner's Office, Spencer-street,
Melbourne, 23rd September, 1901.

To the Honorable the Minister of Railways.

SIR,

In accordance with the provisions of the 59th section of the Railways Act, No. 1135, I have the honour to submit for the information of Parliament the Annual Report upon the working of the Railway Department for the year ending 30th June, 1901.

CAPITAL EXPENDITURE.

The expenditure on capital account at 30th June, 1901, amounted to £40,145,404; the increase for the year being £508,085, less £21,500, recouped from working expenses (see Appendix No. 13). The charges were as follows:—

Construction of new lines and surveys	£203,077
Capital works on existing lines, &c.	167,914
Rolling-stock	108,566
„ (narrow gauge)	7,028
Net debit to capital for the year	£486,585

LOAN ACCOUNT.

The amount of borrowed capital was, on the 30th June last, £37,978,779, details of which are shown in the Appendix, Return No. 12.

The increase in loan capital for the year amounted to £313,626, made up as follows:—

Additional stock under Acts 62 Vict. Nos. 1562 and 1574	£112,000
Stock under Acts 64 Vict. Nos. 1659 and 1713	266,247
<hr/>			

Less stock transferred by Treasury to other Departments out of—

Act 62 Vict. No. 1564	£12,846
Act 63 Vict. No. 1623	22,382
<hr/>			

35,228

Less stock redeemed out of revenue—

Act 60 Vict. No. 1451	£7,500
Act 62 Vict. No. 1560	7,893
Act 62 Vict. No. 1564	14,000
		<hr/>	29,393
			64,621
			<hr/>
			£313,626

The interest for the year amounted to £1,454,231, and in addition the sum paid by the Treasury, and debited to the Railway Department, for expenses in payment of interest, &c., was £15,330. Credit has been taken for £4,752, being 2 per cent. on the weekly unexpended balances of loan moneys raised for railway purposes. The net amount debited to the Railway Account is, therefore, £1,464,809. On the total loan moneys expended the net revenue (exclusive of pensions and gratuities) paid 3·64 per cent. The average rate of interest payable on the borrowed capital allocated to railways is 3·90 per cent.

REVENUE.

The total revenue amounted to £3,337,797 (inclusive of £67,998 credited under parliamentary sanction to income for carriage of grain at reduced rates, and £11,430 for carriage of Victorian coal) being £312,635 more than last year's receipts. The increase on goods traffic amounted to £156,642, and the passenger and other receipts were £155,993 in excess of the previous year.

It is gratifying to record that the receipts were £39,000 in excess of any previous year's income. A good harvest and the Royal visit were factors which helped to produce this result. It is estimated that the gross revenue benefited to the extent of £65,000 by the influx of visitors in connexion with the celebrations. Apart from these special considerations, there is no doubt that the expansion of the railway revenue is largely indicative of an increase in business generally throughout the State.

Reduction in rates for carriage of grain, etc.—The amount credited to the revenue for carriage of grain, &c., at reduced rates is paid to the Department by the Treasury. It represents the *loss of revenue* sustained by the railways in consequence of the reduction in rates ordered by the Government. This recoup is authorized under Act 1439, section 14, which provides, *inter alia*, that—"Where Parliament or the Governor in Council directs the Commissioner to carry out any system or matter of policy which occasions or results in any increase of expenditure by the Commissioner or any decrease of the railways revenue the annual amount of the increase of expenditure or decrease of revenue shall be provided by Parliament in the Annual Appropriation Act and paid to the Commissioner."

The following comparative table shows the revenue for the past eleven years:—

Year.	Gross Receipts.			Gross Receipts per Train Mile	
		£		s.	d.
1890-91	...	3,298,567	...	5	4·63
1891-2	...	3,095,122	...	5	2·91
1892-3	...	2,925,948	...	5	5·17
1893-4	...	2,726,159	...	5	4·49
1894-5	...	2,581,591	...	5	4·76
1895-6	...	2,401,392	...	5	4·11
1896-7	...	2,615,935	...	5	8·03
1897-8	...	2,608,896	...	5	7·77
1898-9	...	2,873,729	...	5	11·00
1899-1900	...	3,025,162	...	5	11·83
1900-1	...	3,337,797	...	6	0·39

WORKING EXPENDITURE.

The total working expenditure for the year was £1,984,796, being an increase of £177,495 over the preceding year.

The large increase in revenue (£312,635) necessitated an increased expenditure. The cost of working was, however, augmented by the extra rates paid for coal amounting to £51,000 for the year, and the increased price of material and labour generally.

Concessions to the staff have been granted amounting to £39,000 for the year, consisting of increments to employés and increased overtime allowances, the payment of an extra 6d. per diem to employés receiving less than 7s. per day after ten years' service, increased allowances for sick leave and accident pay, &c.

The disastrous bush fires which took place in December, 1899, have involved the Department in heavy loss. The working expenditure has been debited with over £2,000 on this account during the year. Since the close of the financial year further claims amounting to £7,000 have been adjusted, for which provision will have to be made.

The extra train mileage run for the year totalled 958,467 miles.

The working cost has also been debited with £21,500 (being £14,000 more than was charged last year) for recoups of expenditure temporarily charged to Capital (see Appendix No. 13).

The following comparative table shows the working expenditure (exclusive of pensions and gratuities) for the past eleven years:—

Year.	Average Mileage open for Traffic.	Total Working Expenditure.	Percentage of Gross Receipts.
1890-91	2,650½	£2,271,561	68·87
1891-2	2,829	2,088,091	67·46
1892-3	2,933	1,789,662	61·17
1893-4	2,982	1,557,566	57·13
1894-5	3,083	1,463,189	56·68
1895-6	3,121	1,456,738	60·66
1896-7	3,126	1,484,407	56·74
1897-8	3,123½	1,566,073	60·03
1898-9	3,122	1,716,441	59·73
1899-1900	3,186	1,807,301	59·74
1900-1901	3,228½	1,984,796	59·46

GENERAL RESULTS.

The result of working for the year under review may be summarized thus:—

Total revenue	£3,337,797
Total working expenditure			...	1,984,796
NET PROFIT ON WORKING			...	<u>£1,353,001</u>

This does not include £31,000, the estimated value of services rendered during the year to other Departments of the State, for which no payment is received.

The ratio of working expenses to revenue is 59·46 as compared with 59·74 per cent. last year.

The summary of working (Return No. 5) in the Appendix shows that the net loss for the year (exclusive of pensions and gratuities) is £80,808, or £111,779 less than the deficit for the previous year.

The expenditure on pensions and gratuities for the year amounted to £90,442 as against £95,239 for the corresponding period. The number of employés in the service who are entitled to pension or compensation has diminished at the rate of 164 per annum during the last five years, the number now on the staff register being 2,804.

At the close of the year under review there were 5,648 employés who had their lives insured in accordance with the provisions of Act No. 1135. The premiums, which are deducted in instalments from the salaries and wages of the staff and paid

to the insurance companies, amount to about £25,000 per annum. It is interesting to note that since the passing of the Act referred to £225,000 have been paid by the staff in premiums. The total amount covered by policies is £880,850.

The following statements show details of Revenue and Expenditure for the last two years:—

REVENUE.

	1900-1901. (Average Miles open, 3,223 <i>1</i> .)	1899-1900. (Average Miles open, 3,186.)	Increase.	Decrease.	Net Increase.

GENERAL SUMMARY.

YEAR ENDED 30TH JUNE, 1901, COMPARED WITH 1900.

DETAILS.	1901.	1900.
Total spent in construction (including rolling-stock, workshops, piers, railway offices, and all surveys of projected lines, &c.) £40,145,404	£39,658,819	
Average cost per mile open £12,402	£12,327	
Total amount raised for construction from current loans ... £37,978,779	£37,665,153	
Amount spent on capital account during the year ... £486,585	£602,368	
Unexpended balances of loan moneys ... £215,843	£383,655	
Net interest on railway loans, including expenses on interest payments, redemption expenses, &c. £1,464,809	£1,430,448	
Total miles open for traffic 3,237 $\frac{3}{4}$	3,218	
Average miles open for the year 3,228 $\frac{1}{2}$	3,186	
Gross revenue £3,337,797	£3,025,162	
Working expenditure £1,984,796	£1,807,301	
PROFIT ON WORKING (after paying working expenses) £1,353,001	£1,217,861	
PERCENTAGE OF WORKING EXPENSES TO REVENUE 59.46	59.74	
Deficit as per Summary of Working £80,808	£192,587	
Revenue per average mile open £1,034	£950	
Expenditure per average mile open £615	£567	
Net return per average mile open £419	£383	
Gross receipts per train mile 6s. 0.39d.	5s. 11.83d.	
Working expenses per train mile 3s. 7.05d.	3s. 6.91d.	
Net profit per train mile (after paying working expenses) 2s. 5.34d.	2s. 4.92d.	
The net revenue paid on the total capital cost 3.37 per cent.	3.07 per cent.	
THE NET REVENUE PAID ON THE TOTAL LOAN MONEYS EXPENDED 3.64 ,,	3.32 ,,	
Number of passenger journeys 54,704,062	49,332,899	
Goods tonnage 3,155,697 tons	2,791,650 tons	
Live stock tonnage 226,163 ,,	206,653 ,,	
Train mileage 11,066,016	10,107,549	
Pensions and gratuities—amount paid during the year (not included in working expenses) £90,443	£95,239	

CONDITION OF LINES AND STOCK.

The way, works, and rolling-stock have been maintained in good working order. The rolling-stock has been kept up to the numerical register. Detailed reports and statements dealing with the necessity for a large addition to the engine, carriage, and waggon stock have from time to time been furnished to the Government, and it is hoped that the proposals submitted will receive such consideration as will enable the Department to keep pace with the increasing requirements of the traffic.

Additional facilities in the interests of the producer are in progress, and are being pushed forward as funds will permit.

NEW LINES.

The total mileage has increased during the year from $3,218\frac{1}{4}$ to $3,237\frac{3}{4}$ miles by the opening for traffic of the following lines :—

Ferntree Gully to Gembrook (narrow gauge)	18	miles
Bungarree Race-course Line	$\frac{1}{2}$,
Total	$19\frac{1}{2}$ miles

NON-PAYING LINES.

The accompanying return (Appendix No. 27) shows in detail the revenue, expenditure, and approximate loss on 52 lines for three years ending 30th June, 1899. The average loss per annum is £294,697.

The following lines remain closed :—

Line.	Miles.	Capital Cost.
Dunkeld to Penshurst (dismantled)	$16\frac{1}{4}$	£50,000
Oakleigh to Ashburton	... $3\frac{1}{4}$... } 160,000
Fairfield Park to Deepdene	... $4\frac{1}{2}$... }
Darling to Waverley	... 1	7,000
	<hr/> 25	<hr/> £217,000

The expenditure to date on general surveys of lines which have not been completed amounts to £301,397.

The interest paid on the whole of the foregoing unproductive capital is debited to the Railway Department and included in the accompanying accounts.

LOCAL RATES.

In consequence of the passing by Parliament of Act 1695, local rates on the following sections have been abolished since 11th February, 1901 :—

Wycheproof to Sea Lake.	Jeparit to Rainbow.
Boort to Quambatook.	Dookie to Katamatite.
Quambatook to Ultima.	Nathalia to Picola.
Dimboola to Jeparit.	

Local rates are still in force on the sections—

Birchip to Woomelang.	Wangaratta to Whitfield.
Natimuk to Goroke.	Lancefield to Kilmore,
Ferntree Gully to Gembrook.	

CLASSIFICATION OF EMPLOYÉS.

For some years past the desirability of framing a revised and complete classification for the whole of the staff has been recognized by the Commissioner and the Heads of Branches. When the existing classification was adopted, it was generally admitted to be of a tentative character, and framed as far as possible to meet the conditions existing at the time of its inception.

At the 30th June last there were 8,919 permanent and 3,037 supernumerary employés in the Department. To classify and provide a satisfactory scale of promotion for such a body of employés embracing the diverse classes and grades which exist in a large railway system is necessarily an arduous task. The difficulties involved, together with the exigencies of the State finances, have hitherto been factors which have prevented definite action being taken. In response to the general desire for a settlement of this important business an earnest endeavour has now been made to draw up a classification which would be acceptable to the whole of the employés, approved by the administration, and would probably be sanctioned by Parliament. The work necessitated frequent and lengthy conferences with the representatives of every section of the staff. Conflicting issues have had to be reconciled. Existing precedents had to be considered. The determinations arrived at in accordance with recent legislation in connexion with the Factories Act could not be disregarded. The claims of every section of the service have had to be carefully compared and adjusted.

I am happy to state, however, that the business has so far progressed that the administration and staff generally are within measurable distance of mutual agreement. As soon as practicable the proposed scheme will be submitted for the final arbitrament of the Government.

BOARD OF ADVICE.

The Board of Advice constituted by the Railways Act No. 1439 has met frequently, and minutes of the transactions have been submitted to the Minister in accordance with the statutory provision.

APPEAL BOARD.

The Appeal Board constituted under the Railways Act No. 1439, consisting of the Secretary, Chief Accountant, Chief Mechanical Engineer, Chief Engineer for Existing Lines, and Chief Traffic Manager, with Mr. J. B. Johnston, of the Newport Workshops (the representative chosen by the employés), has heard 38 charges and 19 appeals during the year.

INTER-STATE RAILWAY CONFERENCES.

The fifth conference of the Commissioners and General Managers was held in Melbourne in May last. It was preceded by the third conference of Heads of Branches of the State Railways of Australia, Tasmania, and New Zealand, who also met in this city; the meetings extended from the 16th to 23rd April.

These conferences were the most representative gatherings of railway officials yet held in Australia.

A very large amount of important business was transacted, principally in the direction of establishing uniformity as far as possible in railway working, accounts, and general administration.

I am pleased to state that already a very large measure of uniformity has been agreed upon, and brought into practical operation.

Mr. John Mathieson, who was appointed Commissioner of the Victorian Railways in July, 1896, resigned his position in May last having accepted the appointment of General Manager of the Midland Railway Company, England.

The year under review closed the term for which Mr. Mathieson was appointed as Commissioner, and, in the last Annual Report, which was published during his absence on Government business, there was a full retrospect furnished of the transactions of the Department for four years. I do not think it necessary, therefore, now to do more than publish the following comparative tables of working for the period during which the Department was under his administration, compared with the previous five years :—

Year.	Total Revenue.	Additional Amounts credited for services rendered for which no payment is received.	Total Working Expenses and Net Interest Charges.	Deficit.	Percentage of Working Expenses to Revenue.	Amounts included in Total Revenue for carriage of Victorian Coal, Grain, &c., at reduced rates.	Pensions and Gratuities not included in Working Expenses.
1891-2	£ 3,095,122	...	£ 3,475,120	£ 379,998	67·46	...	£ 50,048
1892-3	2,925,948	...	3,209,587	283,639	61·17	...	67,629
1893-4	2,726,159	...	3,018,415	292,256	57·13	11,939	93,620
1894-5	2,581,591	...	2,882,036	300,445	56·68	14,000	84,509
1895-6	2,401,392	...	2,895,341	493,949	6c·66	...	94,695
Total ...	£ 13,730,212	...	£ 15,480,499	£ 1,750,287	Average, 60·85	£ 25,939	£ 390,501
1896-7	2,615,935	20,000	2,931,859	295,924	56·74	9,880	83,958
1897-8	2,608,896	20,000	3,003,342	374,446	60·03	11,667	83,720
1898-9	2,873,729	20,000	3,188,531	294,802	59·73	12,980	81,284
1899-1900	3,025,162	20,000	3,237,749	192,587	59·74	53,330	95,239
1900-1	3,337,797	31,000	3,449,605	80,808	59·46	79,428	90,443
Total ...	£ 14,461,519	£ 111,000	£ 15,811,086	£ 1,238,567	Average, 59·18	£ 167,285	£ 434,644
Increase ...	731,307	111,000	330,587	141,346	44,143
Decrease	511,720	1·67

NOTE.—The reduction in rates for carriage of grain, &c., came into operation on the 1st December, 1899. Amounts included—1899-1900, £39,002; 1900-1, £67,998.

For the year ending 30th June, 1900-1901, the net earnings paid 3·37 per cent. on the capital cost, as compared with 2·48 in 1895-6, and the deficit, on the foregoing basis, has decreased from £493,949 to £80,808.

With the exception of two serious derailments near Fairfield Park and Yering, the business of the Department during the year was worked with comparative immunity from accident. It is gratifying to be able to record that the enormous traffic in connexion with the Royal Visit and Commonwealth Celebrations was conducted without accident or hitch, and too much credit cannot be given to the staff as a whole for the able and efficient manner in which the unprecedented business of the year was coped with.

In the Appendix will be found Reports from certain Chief Officers, giving details of the operations of their respective branches for the year.

I have the honour to be, Sir,

Your obedient servant,

W. FITZPATRICK,

Acting Commissioner.

A P P E N D I X.

VICTORIAN RAILWAYS.

APPENDIX TO THE REPORT OF THE VICTORIAN RAILWAYS COMMISSIONER.

YEAR ENDING 30th JUNE, 1901.

- No. 1.** Report of the Engineer-in-Chief.
- 2.** " Chief Engineer for Existing Lines.
- 3.** " Chief Mechanical Engineer.
- 4.** General balance-sheet.
- 5.** Summary of working.
- 6.** Expenditure and revenue statement.

- 27.** Return showing approximate loss on certain lines.

VICTORIAN RAILWAYS.

No. 1.

TO THE BOARD OF LAND AND WORKS (RAILWAYS CONSTRUCTION BRANCH).

Melbourne, 31st August, 1901.

GENTLEMEN,

I have the honour to submit report for financial year ending 30th June, 1901. The railways under construction during the year were as follow :—

Railway.	Length in Miles.	Gauge.	No. of Authorizing Act.	Work commenced.
From Fern Tree Gully to Gembrook	18	2ft. 6in.	1549	1st August, 1899.
From Melbourne to Collingwood	2 $\frac{1}{4}$	5ft. 3in.	1590	8th November, 1899.
From Lilydale to Warburton	2 $\frac{4}{4}$	5ft. 3in.	1589	28th November, 1899.
From Colac to Beech Forest	30	2ft. 6in.	1594	14th June, 1900.
From Heidelberg to Eltham	8 $\frac{1}{4}$	5ft. 3in.	1299	24th September, 1900.
From Bungaree Junction to the Race-course Reserve	1 $\frac{1}{2}$	5ft. 3in.	1682	15th November, 1900.

The railways opened for traffic during the year were :—

Railway.	Length in Miles.	Gauge.	Date of Opening for Traffic.
From Ferntree Gully to Gembrook	18	2ft. 6in.	18th December, 1900.
From Bungaree Junction to the Race-course Reserve	1 $\frac{1}{2}$	5ft. 3in.	26th December, 1900.

The lines which, at the close of the financial year, were authorized but not commenced were as follows :—

Railway.	Length, in Miles.	Gauge.	No. of Authorizing Act.	Date.
Frankston Cemetery	...	5ft. 3in.	821	12th December, 1884.
From Newtown to Pitfield	11 $\frac{3}{4}$	5ft. 3in.	1664	26th September, 1900.
From Woomelang, through Mildura, to Yelta	127 $\frac{1}{4}$	5ft. 3in.	1679	17th October, 1900.
From Moe to Walhalla	26 $\frac{1}{4}$	2ft. 6in.	1691	17th October, 1900.

The following lines were under survey during the year :—

PERMANENT SURVEYS.

Country Lines.

Newtown to Pitfield	11 $\frac{3}{4}$ miles	...	5ft. 3in. gauge.
Moe to Walhalla	26 $\frac{1}{4}$ "	...	2ft. 6in. ,
Woomelang towards Mildura and Yelta	...	67 $\frac{3}{4}$	"	...	5ft. 3in. ,	

TRIAL SURVEYS.

Country Lines.

Cressy to Pitfield	12 miles	...	5ft. 3in. gauge.
Nyora to Kilemunda and San Remo, via Wonthaggi	26 $\frac{1}{4}$	"	...	5ft. 3in. ,	,"	
Dartmoor to South Australian Border	18 $\frac{1}{4}$	"	...	5ft. 3in. ,	,"	

FLYING SURVEYS.

Suburban Line.

Newmarket to Bulla, deviations	4 $\frac{1}{2}$ miles	...	5ft. 3in. gauge.
--------------------------------	-----	-----	-----------------------	-----	------------------

Country Line.

Moe to Walhalla, Willowgrove deviation	...	11 $\frac{1}{2}$	"	...	2ft. 6in. gauge.
--	-----	------------------	---	-----	------------------

REGISTRATION OF UNEMPLOYED.

The registration of unemployed and allotment of available manual work under Government Departments were continued until the end of September, 1900. They were then taken over by the Public Works Department.

The following statement shows the numbers dealt with:—

Period	Registered.	Called for Work.	Failed to answer call, declined work, or unsuitable.	Sent to work.	Percentage of those called who accepted.
8th May, 1895, to 30th June, 1896	12,255	3,018	...
Year ending 30th June, 1897 ...	9,151	3,065	1,473	1,592	52
Year ending 30th June, 1898 ...	16,952	8,814	4,337	4,477	51
Year ending 30th June, 1899 ...	17,803	8,516	4,741	3,775	44
Year ending 30th June, 1900 ...	15,300	9,603	5,654	3,949	41
1st July, 1900, to 30th September, 1900	4,999	4,826	2,801	2,025	42

During the three months—July, August, and September—employment was provided for 2,025 men, viz., Public Works Department, 495; Victorian Water Supply, 127; Lands Department (Forest Branch), 2 ; and Railway Department, 1401.

The classes of labour for which men were engaged are as follows :—

Trade.	Number.	Trade.	Number.
Axemen ...	244	Plasterers ...	7
Blacksmiths ...	3	Platelayer ...	1
Boys ...	3	Plumbers ...	6
Bricklayers ...	4	Powdermen ...	5
Carpenters ...	12	Pile-drivers ...	3
Culvert builders ...	2	Quarrymen ...	59
Gangers ...	12	Stonebreakers ...	27
Labourers ...	1,575	Total men	2,025
Masons ...	16		
Painters ...	46		

The number on the register at 30th September, 1900, was 2,164, as compared with 4,817 twelve months previously.

I have the honour to be, Gentlemen,

Your obedient servant,

F. RENNICK,
Engineer-in-Chief.

VICTORIAN RAILWAYS.

No. 2.

Office of Chief Engineer for Existing Lines,
Melbourne, 29th August, 1901.

SIR,

I have the honour to report that during the year ending 30th June, 1901, the "way" and "works" of the Victorian Railways on the lines open for traffic were efficiently maintained.

The lines closed for traffic during the year were :—

Ashburton to Oakleigh	$3\frac{1}{4}$	miles.	Closed on 9.12.95.
Darling to Waverley	1	mile.	Closed on 9.12.95.
Deepdene to Fairfield Park	$4\frac{1}{2}$	miles.	Closed on 12.4.93.
Total	8 $\frac{3}{4}$	miles	closed throughout the year.

The new lines opened for traffic were :—

Upper Ferntree Gully to Gembrook, narrow gauge (2ft. 6in.)	18 miles, on 18.12.00.
Bungaree Race-course Line	$1\frac{1}{2}$	" " 26.12.00.
Total	$19\frac{1}{2}$ miles.

The following table gives the cost of maintenance and renewals of "way" and "works" for the past year, as compared with the year 1899-1900:—

Year.	Average Miles of Main Line.				Approximate Mileage of Sidings.	Total Cost of Maintenance and Renewals for Year.	Cost per Mile of Main Line (Sidings included).	Cost per Train Mile.
	Quadruple Line or over.	Double Line.	Single Line.	Total.				
1899-1900	5½	288½	2,892	3,186	440	£ 498,459 o o	£ 156 o o	d. 11·84
1900-1901	5½	288½	2,934½	3,228½	440	518,488 o o	161 o o	11·25

The year's working, as compared with the previous year, shows an increased expenditure of £20,029, and an increased cost per mile of £5, but a decreased cost per train mile of .59d. The higher total cost is chiefly accounted for by the first annual repayment of £10,000 to Act 1566, Sec. 2, for relaying various lines with heavier rails, &c.; additional mileage maintained and train mileage run; additional ballast; increased wages; damages by bush fires and floods; expenses in connexion with the Royal visit; increased renewals of bridges and culverts, and a large number of miscellaneous improvements.

PARTICULARS OF MAINTENANCE AND RENEWALS FOR THE LAST 20½ YEARS.

Year ending—	Mileage maintained.			Cost of Maintenance.		Renewals.	
	Total Main Line.	Average	Of Sidings (Approximate only).	Per Mile.	Per Train Mile.	Rails in Miles of Way.	Number of Sleepers.
31st December, 1881	1,215	200	181	11·38	30,105
" 1882	1,300	220	188	11·58	65,327
" 1883	1,432	240	263	15·84	71,548
Half-year ending 30th June, 1884	1,598	270	105	11·10	344
Year	" "	1885	1,655	285	170	9·86	428

" "	"	1897	3,126	436	122	9·92	(a) 71
" "	"	1898	3,123½	436	131	10·62	(b) 63½
" "	"	1899	3,122	436	154	11·88	(c) 93½
" "	"	1900	3,186	440	156	11·84	(d) 132½
" "	"	1901	3,228½	440	161	11·25	67

(a) In addition to 48½ miles } of partly worn 60-lb. steel rails replaced by 75-lb. and 80-lb. steel rails, on Dimboola to
 (b) " " " 9 " } Serviceton Line.
 (c) " " " 4½ " }
 (d) In addition to 173 miles of partly worn 66-lb. steel rails replaced by 80-lb. steel rails, on the main country lines.

The cost of renewals continues to be heavy, chiefly because the iron rails and the sleepers originally laid are reaching the safe limit of their life, and also because, in view of the increasing weight and speed of trains on the more important lines, it has been necessary to replace the light rails which were laid down at first, by heavier rails, and to bring these lines up to the modern standard of railways which have to carry fast and heavy traffic. All the sleepers used have been of the best descriptions of timber available, viz., redgum, red ironbark, and grey box. The number of sleepers used when relaying with heavier rails has been increased by reducing the original spacing from 3 feet to 2ft. 9in. The new steel rails used during the year were, for the heavy traffic suburban lines, 100lbs. to the yard, standard length 31ft. 9in.; and for the outlying suburban lines, with lighter traffic, and for country lines, with fast and heavy traffic, 80 lbs. to the yard, standard length 31ft. 9in. The smoother running obtained by the use of heavier rails in longer lengths, and reduced space between sleepers, is most noticeable and adds considerably to the comfort of travelling. The 60-lb. and 66-lb. steel rails which have been so replaced are not nearly worn out, and they are being used to replace worn-out rails on light lines, as well as for the construction of new light lines in the outlying districts. With respect to ballast, some of our lines are still deficient both in quantity and quality, but the quantity is being increased and the quality improved as fast as is practicable. On the main lines generally good broken stone is being used instead of gravel, so as to give better drainage, and to reduce the dust, which is both disagreeable to travellers and injurious to rolling-stock.

The construction of cattle-pits at public road level crossings and removal of gatehouses from crossings where they interfered with the view of trains have been continued, the gatehouses being re-erected at stations and other suitable places as residences for employés.

Interlocking has been extended as follows:—

New signal-boxes, with interlocking apparatus totalling 110 levers, have been provided at seven places.

"Ammett" or "staff" lock gear (76 sets) have been provided at 41 intermediate non-staff stations. There are now 6,152 interlocking levers in use at 436 places.

Sykes' automatic lock and block on the Flinders-street viaduct, and on the Prahran-Windsor-Balaclava sections, continues to work satisfactorily, and this system is being installed on the new line to Collingwood and in the new Flinders-street station.

With regard to the new station at Flinders-street, the Parliamentary Standing Committee on Railways, having approved of the design of the station building selected for the first prize by the board of examiners referred to in my last annual report, on 1st October last recommended the construction of the new station. Authority to proceed with the work having been given, fair progress has since been made with the re-arrangement of lines of way and platforms, erection of signal-boxes, and other preliminary works.

The schedule of works supplied herewith shows that a large number of improvements have been made or initiated during the year.

I have the honour to be, Sir,

Your obedient servant,

C. E. NORMAN,

Chief Engineer for Existing Lines.

The Acting Commissioner.

SCHEDULE OF WORKS COMPLETED OR IN PROGRESS DURING THE YEAR ENDING 30TH JUNE, 1901.

Locality.	Work.	Completed or in Progress.
Addington	Platform for loading chaff	Completed
Aspendale Park	Extending passenger platform, and providing additional siding accommodation	In progress
Auburn	Alteration to station buildings "up" side	Completed
Bacchus Marsh	Bridge over line in place of level crossing	"
Bagshot... ...	Station improvements...	"
Ballarat	Traversers for goods working	"
Ballarat East	Extension of coal stage	"
Bealiba	Additional siding accommodation	"
Beechworth Junction ...	Interlocking	"
Benalla	Renewal of goods platform	"
Bendigo	Carriage shed	"
"	Brick goods office	"
Berwick... ...	Extension of passenger platform, asphalting, and fencing	"
Beveridge	Combined signal-box and booking-office	In progress
Bright	Station buildings	Completed
Buangor	Residence for station-master	"
Bungaree	Junction for Race-course line	"
Camperdown	Additional siding accommodation	"
Carrum	Goods shed, platform, and additional lines of way...	In progress
Chiltern	Station improvements...	Completed

SCHEDULE OF WORKS—*continued.*

Locality.	Work.				Completed or in Progress.
Clifton Hill	Signal boxes at Heidelberg-road and Ramsden-street	In progress
Colac	Station improvements	"
Collingwood	Additional wood sidings	Completed
"	Signal-box	In progress
Collingwood line	Signalling and interlocking	"
Collingwood to Clifton Hill ...	Duplication of line	"
Croydon	Removing and re-erecting—with additions—residence for station-master	"
Digger's Rest	Combined signal-box and booking-office	"
Donnybrook	Combined signal-box and booking-office	Completed
East Richmond	Retaining wall at Mary-street	In progress
Elmore	Extending sidings and moving water crane	Completed
Fencing (Picket) ...	Between Dudley-street and North Melbourne	"
"	Between Newmarket and Moonee Ponds	"
"	Between Moray and Ferrars streets and City-road, South Melbourne	"
"	Between Perry and Giffard streets, Williamstown	"
"	At Ballarat East	"
Flemington Bridge ...	Extension of passenger platform	In progress
Footscray ...	Amalgamation of stations	Completed
"	Interlocking junction	In progress
Gisborne	Extension of sidings	Completed
Glenrowan	Extension of sidings	"
"	Residence for ganger	In progress
Glen Thompson	Water supply improvements	Completed
Golden Square	Station improvements	"
Goornong	Sheep yards	"
Guildford	Residence for station-master	"
Hawthornburn	Sewerage for station buildings, &c.	"
Hawthorn	Verandah on "down" platform	"
Heathcote	Station buildings	"
Jeetho	Sheep race	"
Kensington	Extension of passenger platform	"
"	Sidings for R. Goldsbrough Row, and Coy.	"
Kilmore	Trucking yards	"
"	Station buildings	"
Korong Vale	Drainage improvements	"
"	Water supply improvements	"
Lake Boga	Residence for station-master	"
Lalbert	Trucking yards	"
Lancefield	Turntable	"
Lancefield Junction	Turntable	"
Lang Lang	Additional office accommodation	"
"	Water supply improvements	"
Laverton	Powder sidings and shed	"
Lee's Crossing (near) ...	Bridge over line	"
Lethbridge	Enlarging reservoir	"
Lilydale	Renewal of bridge at Occupation crossing	"
"	Interlocking for Warburton line	In progress
Lubeck	Sheep yards and races	Completed
Macaulay-road	Extension of passenger platform	In progress
Marong	Station improvements	Completed
Melbourne (Flinders-street)	New station (re-arrangement of lines, platforms, &c.)	In progress
" "	Signal-box "A"	"
" "	Signal-box "B"	Completed
" "	Signal-box "E"	"
" "	Sewerage works	In progress
" "	Extension of footbridge, Jolimont-road	Completed
Melbourne (Spencer-street) ...	Gravitation goods yards	In progress
" "	Increased siding accommodation for goods produce	Completed
" "	Sewering railway offices	"
" "	Additions to ice works	"
Melton	Improving station buildings	"
Merino	Residence for repairer	In progress
Moolort	Bridge over line in place of level crossing	Completed
Mount Moriac	Station improvements	"
Newport Workshops ...	Roof over weighbridge	In progress
"	Additional siding accommodation	Completed
Nhill	Boiler shop extension	In progress
North Geelong	Siding for Frayne and Coy.	Completed
	Station buildings	"

SCHEDULE OF WORKS—*continued.*

Locality.	Work.	Completed or In progress.
Numurkah ...	Residence for repairer ...	Completed
Ormond ...	Residence for station-master ...	"
Portland ...	Sheet piling at new pier ...	In progress
Port Melbourne ...	Additional goods sidings ...	Completed

Wandong ...	Re-opening ballast quarry ...	"
" ...	Combined signal-box and booking office ...	In progress
Warrnambool ...	Three ton crane ...	Completed
" ...	Siding for McGennan and Co....	"
" ...	Additional goods siding ...	In progress
Wedderburn ...	Additional siding accommodation ...	Completed
Werribee ...	Additions to water supply ...	In progress
West Melbourne Dock ...	Sidings for coal wharf, Victoria Dock ...	Completed
" "	Siding for Lysaght Bros. ...	"
" "	Duplication of line to Australian Wharf ...	"
Whitfield ...	New engine shed and repair shop ...	"
Whitfield line ...	Fencing ...	"
Wickliffe-road ...	Goods shed and platform ...	"
Williamstown ...	Additions to water supply ...	In progress
Winchelsea ...	Additional goods siding ...	Completed
Windsor ...	Alterations to post-office ...	"
" ...	Sykes interlocking ...	"
" ...	Sewering of station and post-office ...	"
Winton ...	Renewing and enlarging bridge ...	"
Wodonga ...	Carriage shed ...	"

VICTORIAN RAILWAYS.

No. 3.

Locomotive Carriage and Waggon Branch,
Chief Mechanical Engineer's Office,
Melbourne, 1st September, 1901.

Sir,

I beg to submit the following report on the working of the Locomotive Carriage and Waggon Branch for the twelve months ended 30th June, 1901. The rolling-stock and plant have been kept in good working order, but, for reasons given below, at an increased cost per train mile as compared with the previous year. The following is a comparative table showing some of the principal items for the past eight years :—

	Year 1893-4.	Year 1894-5.	Year 1895-6.	Year 1896-7.	Year 1897-8.	Year 1898-9.	Year 1899-1900.	Year 1900-1
Average miles open ...	2,981 ³	3,082 ³	3,121	3,126	3,123 ¹	3,122	3,186	3,228 ¹
Train miles run ...	10,145,307	9,567,453	8,989,391	9,228,687	9,239,657	9,714,298	10,107,549	11,066,016*
Engine miles run ...	12,825,090	12,292,733	11,557,218	11,880,997	11,929,974	12,657,886	13,316,137	13,383,130*
Gross revenue ...	£2,726,180	£2,581,591	£2,401,392	£2,615,935	£2,608,896	£2,873,729	£3,025,162	£3,337,797
Total locomotive working expenses ...	£632,359§	£567,569§	£547,841§	£553,493	£571,106	£633,422‡‡	£679,978‡‡	£793,345††
Working expenses per train mile ...	14·96d.	14·24d.	14·63d.	14·39d.	14·83d.	15·65d.	16·15d.	17·21d.
Working expenses per engine mile ...	11·83d.	11·08d.	11·38d.	11·18d.	11·50d.	12·01d.	12·26d.	14·23d.*
Number of men and boys employed at 30th June—								
Permanent ...	2,929	2,707	2,644	2,654	2,718	2,674	2,847	2,806
Casual ...	88	80	77	172	334	398	500	692
Cost of coal per train mile ...	3·45d.	3·22d.	3·05d.	2·94d.	2·90d.	3·23d.	3·56d.	4·74d.
Cost of coal and wood per train mile ...	3·58d.	3·36d.	3·15d.	2·99d.	2·96d.	3·29d.	3·61d.	4·80d.
Total cost of fuel for locomotive running ...	£151,439	£133,511	£117,969	£115,093	£113,730	£133,179	£152,121	£221,248
Total cost of fuel for all purposes ...	£151,200	£137,471	£120,463	£117,990	£117,572	£137,904	£158,920	£231,188
Cost of oil, tallow, and waste for all purposes per train mile ...	·52d.	·36d.	·29d.	·24d.	·25d.	·25d.	·24d.	·25d.
Total cost ...	£22,002	£14,524	£11,000	£9,175	£9,595	£9,946	£10,231	£11,738
Cost of oil, tallow, and waste for running engines, per train mile ...	·40d.	·28d.	·21d.	·17d.	·17d.	·17d.	·16d.	·18d.
Total cost ...	£17,040	£11,315	£7,941	£6,443	£6,537	£6,807	£6,605	£8,033

* If computed on same basis as in previous year the train mileage would be 11,123,742 miles, and the engine mileage 14,714,801.

† The cost of making truck covers, hitherto charged to locomotive working expenses, is not included here, being now charged to Traffic Branch.

‡ £6,000 is included in this amount to pay off instalments of Treasury Bonds advanced for replacement of waggon stock.

§ During these three years the staff were on short time, and percentage deductions were in full force.

|| Percentage deductions also apply to these years.

†† £10,000 is included in this amount to pay off instalments of Treasury Bonds advanced for replacement of car and waggon stock.

The year's working shows an increased total expenditure over last year of £113,367, and an increase of 1·06d. per mile. The principal items which contributed to this are—an increase in the train mileage of 958,467 miles; increased cost of coal due to higher rates paid, £51,000; some of the coal was also inferior, causing more to be used per train mile than formerly, thereby contributing to increased cost; £10,000 was also paid last year as an instalment of Treasury Bonds for replacements of cars and waggons, as against £6,000 in the previous year; and higher prices were paid for many classes of material, more especially timber, iron, steel, and copper. The season having been an exceedingly dry one in the Northern Districts, this branch has had to supply trucks and convey water to an unprecedented extent, no less than 8,331 trucks containing 10 million gallons of water, being so conveyed between the months of November and June.

Repairs.—The following are the principal repairs that have been executed during the year :—224 engines, 157 carriages and vans, and 634 waggons have received heavy repairs, and 78 cars and vans and 67 waggons have had light repairs effected at the Newport shops; a total of 651 carriages and vans were painted, varnished, and renovated during the year, besides a large number partially painted. A number of engines have received general overhauls and repairs at the various other depôts, and a large amount of work has been executed in connexion with the frequent periodical examinations of axles, tires, &c.

All light repairs to rolling stock are attended to at the North Melbourne and Jolimont shops, 2,276 cars and vans and 13,273 waggons being so dealt with during the year.

6,538 covers have received heavy repairs, and 916 new covers have been supplied, renewals to covers have been greatly retarded, owing to the difficulty in getting material.

As in previous years, a quantity of work has been executed for the other branches of the service, also the Defence Department.

Boilers.—During the year twenty new boilers were made at Newport, of which thirteen were fitted to engines. The boilers of 46 engines had new bottoms or heavy repairs effected, and 78 had light repairs, while 137 boilers were retubed.

As foreshadowed in my report of 1899, the boiler repairs are becoming exceedingly heavy, and during the next five years it will be necessary to very largely increase the output.

New Car Stock.—Eighteen ABC composite corridor lavatory cars for country traffic, twelve BDBD vans, and twelve BB second-class bogie cars for suburban traffic have been built at Newport under the co-operative labour system. The BB cars are for use in close coupled trains on the suburban lines; five complete trains fitted with continuous draw-gear thoroughly renovated and repaired throughout are now in regular running. The BB cars have been charged to working expenses as replacements of old fixed-wheel base stock.

Two cars built specially for the convenience of the Duke and Duchess of York were turned out of the Newport shop, and were used during their visit. The arrangement of these cars is such that they can be used for any special purpose for which they may be required, and this provision will place the stock of special cars on a good footing.

A 50-ft. van and horse-box combined has also been put in hand, and is nearly completed ; it is being charged to working expenses.

Pintsch Gas.—The fitting of cars has been continued, 454 cars having been fitted to 30th June, 1901.

New Waggon Stock.—One hundred and sixteen steel medium 10-ton waggons, five casualty trucks (H class), and 24 steel water waggons to hold 2,000 gallons, were constructed at Newport during the year. To meet traffic requisitions a large augmentation of the waggon stock is necessary, and an instalment of 200 waggons has been put in hand.

A sample steel waggon to carry 15 tons of wheat in bags, or loose, is also under construction, and will shortly be completed for trial.

A pattern ballast hopper waggon is also being built. It is designed to carry either ballast, rails, sleepers, or other material.

Westinghouse Brake.—During the year 249 waggons in running, were fitted with the Westinghouse brake, and 20 waggons with brake pipes.

Engine Stock.—The construction in the State of the ten express engines referred to in my last report is now completed, and the engines are doing excellent work.

A contract for fifteen consolidation engines has been let to the Phoenix Foundry Company, Ballarat. Deliveries under this contract are expected to commence in October next.

A pattern six-wheeled coupled engine for mixed and passenger work on light or heavy lines is under construction at Newport, and it is proposed to procure a number of these as soon as the necessary authority is obtained.

The "M" class engines are being provided with increased bunker and water space and trailing radial wheels, with a view to using them on the through suburban traffic in conjunction with "E" class engines. This work is being charged to working expenses.

The largely increased traffic and mileage and weight of trains run during the year has emphasized the absolute necessity of increasing the stock of engines. It has been at times most difficult to keep the traffic going with the engine power available, especially as the more modern types of engines are now from ten to twelve years old, and are requiring heavy renewals in boilers, tires, axles, cylinders, &c. These matters have been brought under the notice of the Commissioner in special reports during the last two or three years.

Narrow-gauge Stock.—During the year 1 locomotive, 2ft. 6in. gauge, was built at Newport for use on the Beech Forest line, and 21 medium waggons, 2 louvred waggons, 2 cars, and 2 cars and vans combined.

New Shop Machinery.—The following machines and other equipment have been added to the Newport shop during the year :—

- 2 New 5-cwt. steam hammers.
- 2 Lathes from Port Melbourne, and 1 from Maryborough, removed and re-erected.
- 2 New wall drilling machines.
- 1 New large plate levelling rolls.
- 1 New hydraulic pump and accumulator.
- 2 Blaisdell's lathes.
- 1 Milling machine.
- 1 Radial milling machine
- 1 Tabor moulding machine.
- 1 Tenoning machine.
- 1 General joiner.
- 1 Cupola, made and erected.
- Travellers and jib crane for foundry, made and erected.
- 1 New plate furnace in boiler shop.

Vision Tests.—The examination of the eyesight of employés concerned in the running of trains has been continued, and is now completed.

Casualties.—During the year there were two serious derailments—one at Fairfield and the other at Yering. Apart from these the trains were run without any serious casualty ; the enormous traffic during the Royal visit was carried on without a single hitch or accident, which reflects every credit on the staff, who cheerfully worked very long hours, and materially helped to bring about this desirable result.

I have the honour to be, Sir,

Your obedient servant,

T. H. WOODROFFE,
Chief Mechanical Engineer.

The Acting Commissioner.
